eago-Democratic Opposition to the Morrison Bill Taking Shape.

WASHINGTON, March 14.-THE CONSTITUT Tilden interview has been telegraphe to the papers here, and is generally discur and. Two ions are expressed concerning it. 'One is that Tilden means to declare himself abso-Intely out of the race. The and more general enstruction is that it is a mark statement of

THE TARIFF ASTATION.

The latest plan of Morrison and his friends is to call a carcus and demand the adoption of the proposed tariff bill as a party measure. This indicates that they are afraid to trust a free vote on it in the house; but no such programme can be carried out. The democrats who appose a disturbance of the tariff at this reserve are willing to go inter-caucus. at this session are willing to go inte caucus for the purpose of barmonizing the party if possible, that will not consent that the caucus nossible, that will not consent that the caucus action shell bind their totes for a bill which they how selly oppose. Mr. Randall is not here but Mr. Hopking of Pennsylvania, says this is the position of the democrats who oppose the bill. Mr. Lamb, of tadiana, says he cannot be enade to support it. Mr. Connolly, of Pennsylvania, says forty democrats are opposed to the bill, and thirty-five at least will vote against it under any possible pressure. Mr. Ecton says the tariff is not a party question, and cancus and control to the support of the north and utterly ignored the colored leaders in the south. Not only is the great bulk of the negre race in oppose the bill. Mr. Lamo, of reclama, says he cannot be smade to support it. Mr. Connolly, of Pennsylvania, says forty democrats are opposed to the bill, and thirty-five at least will vote against it under any possible preserve. Mr. Ecton says the tariff is not a party question, and caucus rule cannot be brought to bear on it. Mr. Milked Textre and other enthusiastic supports. Mills, of Texas, and other enthusiastic supporters of the bill, favor calling a caucus to lores a solid party vote on it. One plan of the democratic opponents of the bill is to muster their full strength and vote against its consideration. They think any tariff discussion now would be unfortunate. The outlook is very uncertain everyway. Morrison's followers are growing restless at his delay. He has lost confidence and is puzzled.

Senator Colquitt says he will oppose the report on his bill to pay Georgia twenty thousand dollars for money expended in the Indian wars. Mills of Texas, and other enthusiastic sup-

The house will take a directly opposite position. Mr. Hammond has reported from the judiciary committee his bill appropriating thirty-five thousand dollars to pay the Treaters, desired despite, the computabler (Lawrence desired despite the computable).

thirty five thousand dollars to pay the Trexevant claim despite the comptroller (Lawrence's) decision that it should be credited on the war taz. The two houses may take conflicting views, but the Georgia delegation hope to get both bills through.

Lieutenant of Police Wylie, who formerly kept the National hotel, received a letter this morning from Mr. W. B. Bridges, first assistant foreman Augusta fire company No. 5, asking for rooms for thirty men at the time of the Macon parade, April 15 and 16. All the hotels of the city are daily receiving numerous requests for accommodations. There will be at least ten thousand visitors in the city, and over twenty visiting fire companies. So great, indeed, will be the multitude, that the subject is being considered of transferring the tournament from Mulberry street, where it has been held in past years, to the park, whose large grounds and splendid track will afford abundant accommodations for the many thousands of spectators, and an elegant course for the reel races. The parade and contest of 1884 will be the most brilliant in the annals of the Maconfire department.

McDaniel was anxious to know what was in the jug, so taking his heelscrew off his plow and twisted off the wire. This enabled him to take out the cork. He then placed the jug on a stump, and applying his lips tasted the best brandy he had eversampled. So captivated was he that he drawk several times, and at last the liquor overcoming him, he slipped down asleep at the foot of the stump. Failing to come to dinner his mother went out to the field after him, when he was about waking up. Together they gave the jug another examination, when Mrs. McDaniel's attention was attracted to its great weight. An investigation showed the presence of 1 900 five dollar cold pieces, making a total of \$9 500. The mystery was cleared up in a singular manner. McDaniel's grandfather was a captain in the Florida war. It was known that he was weathy before he left. TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Readache, fuliness after enting, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Bots before the eyes, highly colocred Urine, CONSTEPATION, and demand the use of a remedy that acts directly cred Urine, CONSTIPATION, and demant the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

Under the hot sun of August, 1882, the village of Dover, N. J., lay still as the sphinx in Egypt, while Elijah Sharp, of that place, slowly and softly spoke of the past. "Yes," he said, "I was in the army and saw many of the sights of those fearful years I was finally discharged from disability. resulting from sunstroke. I came home, miserable in health and spirits; so enfeebled that I took cold on the slightest exposure. Life seemed worthless to me;

lived only in memory." "That was sad enough," I said, dividing my last

wo cigars. "That's so," responded Mr. Sharp; "but I got ver it. Outgrew it? Not exactly. When in that ondition I began taking Parker's Tonic, and my beath or mm need to improve right away. I was astonished at it, and so was my wife. I piled on the flesh and could eat anything. My ambition blazed up. I could attend to business, and now, excepting that I have to take care about exposing myself to the hot sun. I am as well as I was the day ealisted. My Own Experience: Fourteen years ago Catarrh was considered an incurable disease. I had then suffered for eighteen years in a manner only known to those who have this disease in some of its worst forms. My professional duties made exposure a necessity, and I was first attacked by a slight cold; terrible headaches, which could not be cured, followed by deafness and ringing in the ears, soreness of the throat, disgusting nasal disentages, weak indamed eyes hawking, raising of vile matter, black and sometimes bloody mucus, compling, with great soreness of the lungs. The liver and stomach were polluted with the mass of diseased matter running from the head, until dyspepsia, indigestion, and liver complaint made me a wreck and inconactiated me for my professional duties and confined me to my bed. Compelled to resign my pastorete, and feeling that my end was near, in desperation I gave up the physicians and compounded my Catarras Specific, and wrought upon myself a wonderful cure. Now, at the age of sixty-eight, I am wholly restored, can speak for hours with the mass of disease, Every Physician who has examined my Specific says it is certain, and thorough, and perfect.

The disease assumed a new form: my mouth and throat were attacked, ulcers were formed and soon the ulva was all eaten away, and large sores through the posterior snares. My condition was not only deplorable, but apparently hopeless." After three months use of our treatment, he says: "I am entirely cured; all the horrible disease entirely removed."

This is to certify that I was a sufferer from nasal catarrh. I tried remedies of several physicians, but instead of getting better, I gradasily grew worse. I saw your advertisement. I applied to you at once and received your remedies, and commenced their use. At first I thought it was a humbur, but I followed your directions, and now I can rejoice in saying I am well.

## SAVED HIS LIFE.

A Physician's Testimony.

A Physician's resisting.

I was called to see Mr. John Pearson, who was confined to his bed with what appealed to be consumption of the worst form. As all of his family had died with that dread disease (except his half brother), his death was recarded as certain and soon. After exhausting all the remedies. I finally as a last resort, een for a bottle of Brewer's Lung Estorer, and it acted like magic. He continued the use of it for some time and has been fully restored to health. So far as I could discover, he had consumption, and Brewer's Lung Restorer saved his life.

J. O. HOLLOWAN, M. D., Barnesville, Ga.

Another Rescue From Death.

In 1881, while sewing on a machine, my wife was taken with a severe pain in her side, which was soon followed by hemorrisge from her lungs, severe cough, fever and she could neither eat or sleep, and in a few weeks she was reduced to a living skeletow. Her stemach refused to retain any food and the physician thought one of her lungs was entirely gone. At a final consultation of two physicians her case was pronounced hopeless. I tried Brewer's Lung Restorer by advice of one of the physicians and she began to improve after the third dose. She continued the medicine and is now in excellent health, and is better than she has been in several years. I believe Brewer's Lung Restorer saved her life.

BENJ. F. HERNDON, Yatesville, Gs.

From Macon.

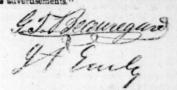

In August, 1881, it was discovered that my son's wife was in the last stages of consumption. She was couching incessantly and at times would discharge quantities of pus from her lungs, could not sleep or retsin anything on her stomach, and we thought it only a question of time when life wou'd be compelled to give way to the fell destroyer. After all other remedies had failed, we got Brewer's Lung Restorer and began it in very small doses, as she was very weak. She soon began to luprove: continued the remedy and was restored to life and health, and is to-day better than she has ever been before. I regard her restoration as nearly a miracle, for which she is indebted to Brewer's Lung Restorer.

It is a pity our correspondent is not a subscriber to THE CONSTITUTION instead of a casual reader,

for no one who has the advantages of the insort represented by our anonymous correspondent. It may be well enough, moreover, to reiterate the facts connected with the deplorable situation which the democratic party was compelled to face in 1880.

When the democratic national convention assembled in Cincinnati in that year, it was discovered that Mr. Tilden had but two opponents-Mr. John Keily, of New York, and Mr. Thomas A. Hendricks, of Indiana. Mr. Hendricks, with a blind fatuousness that has never had a parellel in our politics, refused to allow his name to be used on the old ticket. He had a special ambition of his own, and his friends seemed to think that in the confusion and disturbance he perhaps had a chance to receive the nomination. is true they were promptly undeceived, but not in time to save the party from the con

equences of the mis ake. The opposition of Mr Kelly was of even no mportance than the defection of Mr. Hendricks. Without the aid of the former, i was impossible to carry the state of New Y. rk which then, as now, was absolutely indispensable to the success of the democratic party. The friends of Mr. Tilden found it mpossible to conciliate Mr. Kelly. This, with the persistent refusal of Mr. Headricks to take his old position on the tick tinduced Mr. Tilden to write his famous letter to the democratic convention. This document touched the popular heart as nothing else could. The reading of it excited a great tunult of enthusiasm in the convention, and its publication called forth thousands of telegrams from prominent men all over the country, demanding, in the name of the peo-

ple, the renomination of Mr. Tilden. But it was too late. If Mr. Hendricks had onsented to the use of his name on the old icket, Mr. Tilden would have received the omination in spite of the opposition of John Kelly, and the possibility is that the sens of justice, which is strong in the popular mind, would have enabled the party to carry New York in spite of Tammany. As matters stood, however, the nomination of Mr. Tilden, with a new name upon the ticket, would have been a farce, and so General Hancock was nominated, though with small hopes of

his election. But all the circumstances have changed, M Hendricks is willing to go upon the old ticket, and Mr. John Kelly has announced that no oyal democrat can afford to oppose the old icket. Perceiving and feeling the almost rresistible impulse of popular sentiment, he is not greatly different to the situation of 1880. New York is as necessay to democratic success now as then. With Tammany reconciled. New York becomes a democratic state beyond all possibility of doubt, and with the old ticket it will be a comparatively easy matter to carry Connecticut, New Jersey and Indiana.

It has been hinted that the revival of the Tilden movement is for the purpose of counteracting the programme of the western freetraders: but this seems to be an afterthought on the part of those who take no note of the views of the people. It is to be observed that luring all these years since 1876, the popular regard for Mr. Tilden has increased rather than abated. His name appeals to the American idea of justice, and he is reties as the embodiment of a neces. sary idea in politics, the idea of the post office appropriation bill in committee of the sary idea in politics, the idea of administrative reform. He is the one and whole. From a table read in the debate it appears that the postal receipts in Georgia last year were This was done as a concession to the house as only democratic leader in whose judgment \$559.140, while the postal expenditures in the state house will during this session make the the one and only democrat whose nomination would give assurances of success. We invite the attention of the railroads and of Atlanta readers to the communication printed elsewhere. We shall have the pleasure of recurring to this subject again at an early day.

THE LIQUOR QUESTION IN OHIO.

The democrats of Ohio promised to pass, they gained the power to do so, a graded liquor tax bill in place of the Scott high-liense law, and at a recent caucus of the dem ocratic members of the legislature it was agreed to pass such a bill. The taxes agreed upon are as follows: for sales of \$2,000 or unler, \$75; for sales from \$2,000 to \$3,000, \$100 tax; \$3.000 to \$5,000, \$150 tax; from \$5,000 to \$8,000, \$200 tax, and over \$8,000, \$250 tax. Some of the democrats do not like the new schedule, and the republican papers of the state freely predict that no graded tax bill will be passed. As in all liquor legislation there is a great diversity of opinion and much confusion.

The other provisions of the bill are not im portant. The first section requires each etail dealer to keep a correct record of sales and the prices charged. The assessors are to return the gross sum eceived at each bar, whether the sales were or cash barter or on time but excluding sales on prescriptions or for mechanical, pharmaeutical or sacramental purposes. No account s to be taken of sales of ale, beer or wine at a picnic or festival conducted by a society for enevolent purposes. All assessments are to be a lien upon the real property in which the usiness is conducted. Persons selling less than three gallons at the same time are to be onsidered retail dealers. All sales on Sunday are to be unlawful, except in cases where the council of a city or the township trustees otherwise decide.

MR. C. B. LEWIS, ("M. Quad") of the Detroit Free Press, is in the city. Mr. Lewis's pleasure is ot unmixed with cold business. He has discovered that a great many of the people of the northwest have returned from the inhospitable climes of akota, Colorado and California, and he has de ermined to lay before them the advantages to be und in the temperate climate fertile soil of the south. Mr. Lawis is fresh from Alabama, and he now proposes to give some ltttl ime and attention to Georgia. His letters from the south are the fairest that have ever been writ willing to accept Mr. Tilden. erests of his paper. From Atlanta, Mr. Lewis will go to Augusta, then to Milledgeville, Macon, Barnesville and Griffin, and we commend him most heartily to the friends of THE CONSTITUTION. WHEN Mr. Tilden discovers that his candidacy i bsolutely necessary to the success of the democratic party, he will not hesitate on account of

what he deems his physical ability.

MR. HAMMOND, on Tuesday, brought in a repo rom the judiciary committe to pay to Georgia in cash the sum appropriated by the last congress on account of money expended for the common defense in 1877. > MR. TILDEN is of the opinion that the attempt, t reform republican misrule and corruption would be too much for him. Certainly there is something in this, but Mr. Tilden is still capable of cutting out the work.

> WITH Carter Harrison, of Chicago, in favor of Mr. Tilden, the cordon may be said to be complete. THE curious statement is made that within the past ten years the free use of narcotics has greatly creased not only generally, but among physicians It is also said that some doctors use opium who make a specialty of curing the opium habit in others. Possibly the spread of the opium habit is due to some extent to the knowledge that it can be cured. Doubtless the stories about doctors have been greatly exaggerated, but it must be admitted that, like other people, some of them feel a desire for stimulants. It will not do for them to make a practice of drinking whisky, and they therefore rert to narcotics. Between two evils an opiumeating doctor is preferable to a whisky drinking loctor. A doctor's undue familiarity with narcotics will not make him liable to give large dozes of nose drugs to his patients, but the use of liquors engenders a cert in recklessness in most men. At east, this is the view of a New York physician.

MR. GEORGE W. CABLE, in a recent interview with reporter, said that he was born and brought up a New Orleans. When he was working on the Picayune be was instructed to write a series of sketches of the churches of that city, and had oceasion to go pretty deeply into old traditions. This led to the writing of the short sketches recently collected in the volume called "Old Creole Days." The Creoles attracted Cable's attention at the outset of his literary career. For a long time the Creoles drew social lines very closely, but the ties of business have overridden them. They stick to old customs, to old methods of education tween them and any manifestations of prejudice. We do not know whether the conspiration of the south, he said that it had been very courteously criticised, and the Misssippi legislature adopted the sug gestions in the article in reference to the convicts, His next work will probably be a novel idealizing the Acadians.

SPEAKING of the tragedy of "Memnon," written by Mr. Henry Cary Carlton, while on the New Orleans Press, the New York Times critic elegantly remarks, "It shows conclusively that a vigorous American dramatiet has sprung up like an unex pected jack-in-the box."

THE well-known educator, Dr. A. D. Mazo, in his recent address before the Louisiana Educational society, strongly advocated industrial education for women. He believed that the same brain power which enabled southern women to shine in society to render efficient aid in church and school affairs There is nothing queerer—nothing more indicative of extreme fatuousness—than the fact that while the railroad interests should as were suited to them. The tendency of

and seek remote fields leaves the young women of the south to bear the brunt of existence. Under such adverse conditions they need a practical, selfsupporting, industrial education.

MR. TILDEN is of the opinion that it will be impossible for him to be the democratic candidate for president. We trust Mr. Tilden is mistaken It frequently happens that some of our greatest statesmen are deceived.

A New York tailor says that there is very little change in spring fashions. Cutaway coats will be made with five buttons, instead of four, and the skirts will not be cut away as much as formerly, They will be made to fit the form as closely as possible, and a trifle lower in the neck than heretofore. Trousers are not quite so light. and when the season has advanced a little more white waistcoats will be fashionable. Frock coats are double breasted, buttoned very high in the neck, and are much shorter than formerly. Thy favorite suit, however, will be English tweed, the whole suit of the same material. The vests will be cut without any collar, and the sack coat will fit very snugly. Overgaiters of the same material will be worn.

GREAT statesmen do not make the mistake Eis marck has made. He has made the dead Lasker more powerful and influential than he ever was while living.

MANY people are under the impression that rail read commissions are very recent innovations. This is a mistake. Railroad commissions were established in some of the states more than twentyfive years ago, but it is only within the past ten or fifteen years that they have attracted much attention. The time was when the above appellation applied Atlanta; at present the title of "trade center" or 'distributing point' as applied to this city is a mis

omer. "Ichabod" suits better now. Atlanta has been a great commercial point; her Atlanta has been a great commerce. They hale and terchants have been liberal and progressive. They hale and through have carried the fame of their city and its people to go he limits of the country. They have helped to give deorgia the character she enjoys of being the forelost amonst the southern states; but the power which they have helped to build up with their money and their patronage is now using every neans to crush them and to destroy the prosperity

of this city. Under the reflered nool system as now carried on Atlanta is treated with injustice. Distance from my and all points counts against this place. Proximity to any point brings no benefit. For instance reights from Chicago, St. Louis, Louisville, Nashrille, etc., Atlanta pays practically the same rate as Macon, Augusta, Athens, Washington and Elberton, although to reach the points named the freights are hauled through Atlanta. But on eastern freights Augusta and Macon get a much lower rate. Again, eastern freights are carried through Atlanta to Chattanooga, Montgomery, Mobile, Nash ille, Rome, and even to Birmingham, Anniston and Oxford, at less rates than to Atlanta.

Under this condition of affairs how is Atlanta to do ousiness? Augusta can come into our territory on one side, Macon on another, Montgomery on the west can come to about Newman. Chattanooga can now pass through and go beyond Atlanta; the mall cities and towns around us can get as low or ower rates of freights than Atlanta obtains, alhough the haul may be a hundred miles or so longer, Under this state of affairs why should any rudent man engage in business in Atlanta? or why is it that the people of Atlanta will quietly abmit to this unjust discrimination? Is there no emely? Is Atlanta to cease being a commercial enter and be wiped off the map as a city of the nture, and become a way-station? The recent agitation in political circles over the

candidate in the coming presidential contest has brought to the front a person whose name is not unfamiliar to our people, and who has heretofore been prominent in the politics of the country. The democratic party, for the fifth time in twenty years, has now some chance to put a termination to the oppression of radical despoism that has been the political curse of our common country for that length of time. To do this, and do it successfully, depends to a large extent upon the selection by the party of a men who is qualified in every respect to be placed at the head of the presidential ticket. For months the public mind has been in suspense as of time. To do this, and do it successfully, depends to a large extent upon the selection by the party of a man who is qualified in every respect to be placed at the head of the presidential ticket. For months the public mind has been in suspense as we as the selection. Most of the available leaders in the democratic ranks are surrounded and hampered by certain influence that almost preclude the possibility of their election. In this dilemma the wisest and willest of our party politicians have centered their confidence upon the nomination of Samuel J. Tilden, of New York, around whom it is believed the people will rally with all the enthusiasm necessary to insure his election. The mere mention of his name in connection with the candidacy has already aroused a feeling of hopefulness among democrats, and it is believed that the Tilden boom will wake the party to a general concert of action. The circumstances that have here. cert of action. The circumstances that have here tofore surrounded his political career only add to the control of the surrounded his political career only add a public magnetism to his already personal popu arity. The Tammany differences have been reconciled, and with Kelly's influence he is the strongest man that New York, the pivotal state in our politicans know and feel this, and would rather see any other man as our standard bearer than Samuel J. Tilden. They realize his vast strength in New York, whose electoral vote if lost to them would be disastrous to their carapsign. But few objections have ever been urged against him personally or publicly. Some have contended that his age would be a serious obstacle; but from all accounts he is hale and hearty, and well able to go through with the onerous dutters of a public canvass. Others have insisted that he was vaciliaing and lacked determination of character in refusing to asser this rights before the electoral commission and the resist that mest unjust and injuitious imposition (both upon himself and our people), which deprived him

rights before the electoral commission and to resist that most unjust and iniquitous imposition (both upon himsel and our people.) which deprived him of his rightful equities as the duly and lawfully elected president. But in no one instance did the "Sage of Gramercy" exhibit more genuine patriotism than when he gracefully yielded to the force of circumstances rather than plunge his people into a commotion of uncertainty that might have led to disastrous results. We are glad that the party has again brought his name before the public. He not only deserves, but is entitled to all the honor of leading us to a political victory. Linked with some eligible man from Ohio on ticket would be strong enough to succeed; for, with a revolution of the electoral vote in these two states, the republicans ticket would be strong enough to succeed; for, with a revolution of the electoral vote in these two states, the republicans would have to bid a final farewell to their usurpation and power. There is now no time for bickerings or differences among democrat. The common wish for our potitical prosperity should make a unit of the party. Without concert there must ever be confusion, and now while Tilden and Tammany are burying all their bitterness is it not wisdom to urge upon the people his nomination? rom the Pledmont Press.

Since the appointing of a place and time of meet ng of the national democratic convention, a great Tilden boom has sprung up over the entire country The democrats, north and south, are bending every energy to elect their candidate in the coming election. To carry New York state is almost a necessity A solid south, New York and several other states of which we may feel confident, would elect our ticket. Tilden can not only gain a great victory in his state but can carry several doubtful ones. He is the only man who has ever defeated republicanism; he is one of the greatest living policiciaus, is a man of immense genius. It's the impression all over the country that this man will become the next standard bearer of our democratic hopes. We trust that this may be true and that he trust that this may be true and that he

Some steps should be taken to remove the evil. Is there no power or authority nour railroad commission to stop the discrimination against us? The managers of the railroads seem to laugh at and despire it. Is there no law to prevent this injustice? If there is why not make it? Every merchant, mechanic and property owner in Atlanta is interested in this matter, and unless something is done to remedy the evil, Atlanta has seen her best days.

flagrant their inter committed. Is clearly shown by the universal contempt in which Hayes is regarded to day. Never has any one, who ever held houorable position in the country, sunk so completely out of public sight and the public mind, and never was a man retired to private life with such unanimous consent. Justice to Tilden and Hendricks is a deep seated sentiment in the breasts, of the honest masses of the country, to which sentiment the people would doubtless be glad to give utterance as the polls.

The nomination of the "old ticket" would also be a master stroke of policy, in that it would firmly unite all factions of the democratic party. It cannot be denied that at this moment, the party is in dauger of factional discord over the tariff question. The majority is largely in favor of tariff reform; but there is quite a respectable minority from sections dependent upon protection for the rapid accumulation of wealth, who are inclined to throw every obsisable in the paths of the reformers. That the latter will eventually win cannot be doubted, for their cause is the cause of the people versus the monopolists. But many, even of the tariff reformers, are of the opinion that it would be un wise to take any decided steps towards tariff reduction at this time, which might jeopardize the return of the democracy to power, and tend to retain the reits of government in the hands of the republicans. The ariff issue is, it must be admitted, at present in the nature of a frebrand in democratic ranks. The nomination of Tilden and Hendricks would effectually settle all probability of disturbance. With them in the field, all issues would be lost sight of but the great fraud of 1876, and the pian question presented to the people would be simply whether they desired to indorse or reprobate that fraud. This fact alone will be a powerful element in favor of the old ticket, and may lead to its nomination. And if the effect of such nomination shall be to bring harmony and unity to the democratic party and enable it to march to

### THREE KISSES.

An augel with three lilies in her hand Came winging to the earth from Paradise: They changed to kisses ere she reached love's land And fell upon the brow, the lips, the eyes! First was the kiss of purity and peace-

Lonely they sat together by the fire—
To him from sorrow came a dear release;
To her, the shadow of a dim desire.
Two simless souls had ceased their wandering,
Two fettered spirits struggled to be free;
To sweet love's garden came the blossoming.
The tender leaf unfolded on love's tree

Next was the kiss of soul bound into soul— They stood at night beneath a united tower-Dimly they heard the waves eternal roll, Life was embodied in a single hour! POSTOFFICE LEGISLATION.

A Reduction of Newspaper Postage Proposed-Paying Ante-war Mail Contracts.

WASHINGTON, March 14.—The bill introduced in the senate to-day by Mr. Brown to
provide for a reduction of the rate of postage
on mail matter of the second class, provides
that of the last of October part, the rate of

roads, a substitute for the joint resolution for the payment of the southern mail contractors, which is in substance similar to the resolu-tion which passed the senate in the last congress. It provides that the secre-tary of the treasury shall, at once, say in full to the late mail contractors of the states of Alabama, Arkansas, Florida, Geor-gia, Kennucky, Louisians, Mississippi, Mis-senar, North Carolina, South Carolina, Texas gia, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Texas, Tennessee, Virginia and West Virginia, or their legal representatives, amounts which he shall find due under their respective contracts for the years 1858 9-60-1 and accruing before the said states respectively engaged in the war against the United States, in the order in which the clauby are delayly prein which the claims are duly and legally pr sented. It also provides that the appropriation of \$375 000 made by the act of March, 1877, shall be reappropriated, and made immediately available for this purpose. It provides also, and this committee say is a new amend-ment, suggested by the 6th auditor, that the postmaster general may expend such part of this appropriation as he may deem proper in procuring proof to protect the United States against over payments or fraud. The object of this amendment is to permit the postmaster general to purchase the papers now in th hands of private parties forming a part of the records of the confederate states posteffice

NEW YORK, March 14. - The early trading at the stock exchange to-day was irregular but in the main lower. At the announcement that the Trunk line managers had ordered a reduction in the east bound freight rates, the market vibrated between weakness and strength until about 1 p.m., when speculation was dull. In the early dealings, New York Central declined to 1183/8, and during the day's sales to 116% and 117. It was reported that Lake Shore was a fraction lower: Central Pacific declined 1; Union Pacific 34; Lackawanna 3/4; Erie 3/4 Texas, Oregon Transcontinental and Western Union were stronger. In the afternoon it was ru mored that the Chicago and Northwest railroad ompany had agreed to submit the question of percentages in the new pool to arbitration, and this led to purchases for both accounts. Prices moved up 16 to 156 per cent, St. Paul, Pacific Mail, New York Central, Union Pacific, Northwest. Lackawanna, Western Union and Missouri Pacific being most conspicuous in the rise. The market closed

s stock was in brisk demand, selling up to 53 he revival of the report that the company will Latire a dividend shortly. It was also rumored that the company having the cash on hand had made an offer to the l'anama railread to anticipate payment of its obligations not yet due to th ; company. BEAUTIFUL LOTS AT AUCTION MARCH The BEAUTIFUL LOTS AT AUCTION MARCH 18th, 1884, at 3 o'clock, on Jourdan Johnson's Hill, fronting on Houston and Randolph treets and Johnson's avenue. This property is high and attractive, commanding a magnificent view of the city, from this point the sunsets are grand. Wealthy men own the surrounding property and ares fast making this portion of Atlanta more desirable and valuable. This but a short walk from the Horse cars. There are no unpleasant neighbors to get rid of. Every person is desirous of a fine building spot should avail themselves of this also. Choice lots are rapidly disappearing from the merket. Buy while you still have the opportunity.

CAUTION.

Swift's Specific is entirely a vegetable prepara tion, and should not be confounded with the vari ous substitutes, imitations, non-secret humbugs "Succus Alterans," etc., etc., which are now being manufactured by various persons. None of these contain a single article which enters into the com-position of S. S. S. There is only one Swift's Specific, and there is nothing in the world like it. T prevent disaster and disappointment, be sure to get

Swift's Specific is a complete antidote to Blood Taint, Blood Poison, Malaria Poison and Skin Hu-mour. J. Dickson Smith, M. D., Atlanta, Ga. I have had remarkable success with Swift's Specific in the treatment of Blood and Skin Diseases, and in Female Diseases. I took it myself for Carbuncies with nappy effect.

D. O. C. HERRY, M. D., Atlanta, Ga.

I used Swift's Specific on my little daughter, who was afflicted with some Blood Poison which had resisted all sorts of treatment. The Specific relieved her permanently, and I shall use it in my practice. W. K. BEONTE, M. D., Cypress Ridge, Ark.

In 1880 I came from the North to take charge of the gas worss in Rome, as superintendent, and after the overflow, which occurred in the spring following. I was very much exposed to malarial poison, and in 1882 found my blood so contamina-ted with the poison that I was forced to give up business. I was tested by the physicians without relief.

business. I was tested by the physicians relief.

My trouble finally determined in an abscess of the liver, and nearly every one (myself included) thought I was doomed to die within a few days. In this condition I was advised by a friend to take Swift's Specific, and I took i just as a drowning man would catch at a straw, but as soon as my system got under the influence of the remedy, the absects came to a point and burst, passing off without pain. In fifteen days after this I was up at my work, and have since enjoyed excellent health.

Every sufferer from malarial poison should take Swift's Specific.

FORTUNES IN DIRT.

Some Big Fortunes Have Been Piled Up by Real Estate Traders in Atlanta.

Mr. Jud Glenn, who records deeds in the office of the clerk of the superior court, handles a big amount of valuable paper. "What is the biggest deed recorded on the books?" asked a Constitution man yester-The biggest deed on the books is a deed

made by Robbin B. Smith to the Atlanta real estate company. The property is principally on McDonough street. The deed covers only two pages in the record, and the 'cash in hand paid was just two hundred thousand dollars." "Does a valuable piece of property usually "Poes a variance piece of partial have a big deed?"
"Not much. It's the fellows who have the little lots who want the biggest deeds. A scrap of paper half as large as your handkerchief can hold the biggest piece of property

You strike some right interesting things here some times, don't you?" asked the

fist. It is enough to make a man wild to see some of these deeds. Just think of that Med-lock property near Ponce de Leon. of Floyd superior court. Judge Stewart, of Griffin, presided. The jury were out until late at night, a number being in favor of imprisonment for life, but finally returned a verdict of guilty without recommendation. Freeman was sentenced to be hanged. A motion for a new trial was made, which was heard before Judge Branham, Judge Stewart having returned to his circuit. The motion was overruled and the case was carried to the supreme court where the judgment of the court below was affirmed, and at the January adjourned term of Floyd superior court Freeman was sentenced to be hanged. A strong petition was presented to Governor McDaniel, asking that the sentence be commuted to imprisonment for life. The petition was signed by Judge Stewart, who tried the case; by Judge Branham and Judge Harris, of the city court, by seven members of the jury which convicted him; and Solicitor General Wright stated that "public sentiment and public justice would be satisfied with the commutation."

THE LADIES' EXCHANGE.

Meeting Yesterday ann a Discussion of the Pro-posed Plan of Operation.

The Ladies Exchange, a branch of the Women's Industrial union, held a meeting at the Young Men's Christian association hall yesterday evening at three o'clock.

This exchange is really the working commit e of the Women's Industrial union. The general plan of the work, as at present understood, is for this committee, under the direction of the Woman's Industrial union, to take charge of the buying of

Industrial union, to take charge of the buying of articles for the home and the sale of the products of those employed by the union. The meeting yesterday was attended only by the memoers of this committee, or branch of the industrial union. Nothing of importance was done at the meeting other than the discussion of the plans and prospects of the exchange. Great enthusias on was expressed and it is thought much good will be accomplished by the exchange.

The ladies nave obtained a house for their workroom. It is at the corner of Cone and thurch street, and they would like for all members or the union who have furnished articles? Intriduce, etc., to a like the same to this place by Monday nex. Also any contributions from outside parties of furniture or other household goods will be thankfully received there. The house they have obtained is well adapted to their wants, being large and roomy with basement rooms, which can be used as coking and dining rooms. The ladies seem brim full of enthuslasm and expect to accomplish much good towards the elevation of the working women and girls of Atlanta. There is certainly a broad field in which to work and the good they can do is incalculable.

## SPEAR'S STILBITO

Which Opened Ma hews' Abdomon-A Fight at Rous
Millo's Place.
Bill Spear and Miles Mathews, two negro fakers, attempted to make corpses of each other yesterder, morning at Raus Miller's place on Decaring there:
Both negroes are hard cases and are the especial pets of the patrolmen, who are on daty on that beat. Yesterday morning they met in Miller's place. Soon after moeting Mathews asked Spear for a little debt of honor. The request insulted Spear who iastantly drew his kni'e and began working on Mathews. Mathews defended himself with a sick and struck Spear several murderous blows. Spear succeeded in cutting Mathews across the abdomen, making a wound about three inches long. He then disappeared and has since evaded the police. Mathew is not seriously hurt. attempted to make corpses of each other yesterder

The Ple Festival. Owing to the rain Thursday night the pie festi val conducted by the ladies of the Sixth Baptist val conducted by the ladies of the Sixth Baptist church was continued until last night. The pies, cakes, oysters, coffee, etc., were delicleus, and sold well. The ladies are highly peased at the success of their venture. The money raised is for the benefit of the church and will go towards beautifying the edifice. The festival will be continued to night.

A Small Burg'ary.
Thursday night some thieves effected an entrance into the store of Mr. T. Snelson, corner of Elliott and Magazine streets. They robbed it of quite a quantity of groceries, and then tore the money drawer loose from its fastenings. Yesterday morn-ing the drawer was found on Rhodes street, with only twenty-five cents in it. From the drawer the burglars obtained between forty-five and fifty do-lars. There is no clue as to who the burglars were.

For an Assault. Alex Raglan, a negro man, was arrested last night by Patrolmen Norman and Mehan. Raglan's arrest was due to the free use of a stick upon the head of another darkey. The charge preferred

gainst Raglan was assault and battery. Death of Mr. John McGhee. Mr. John McGhee died at an early hour this morn ing at his residence on Decatur street.
